

I-Search Question #4 (12th grade only)

This assignment is due one week from today for a total of 40 project points (10 points for the introductory paragraph and 10 points for each body paragraph).

This section will contain two or three of your most important conclusions about your theme and its related works. These conclusions should be supported with QNQs to illustrate to your reader how you arrived at your final conclusions. In your introductory paragraph, you should concentrate on at least 3 things you learned from your theme. In the body, discuss how you can show or prove what you learned. Spend one paragraph talking about each idea.
